Release Notes

The Forefront Client Security Deployment Tool is a free toolkit that is meant to provide additional deployment capabilities in addition to those who are available with the RTM Version of FCS. This tool gives network and security administrators the ability to scan their network and/or AD, discover existing solutions that are already installed on their clients, uninstall the existing solution and install FCS Client – all in one.

Update: Build 109
- Fixed Symantec Password Lock Removal Registry Bug.

Update: Build 108
- Fixed "Program Files" Uninstall Bug
- Fixed AD Computers Bug.
- Added support for new version of symantec.

Releases Released | Planned

Tool ausführen

Deployment Optionen angeben

The screenshot shows the 'Configure Deployment Options' window in the Microsoft FCS Deployment tool. The window title is 'Microsoft FCS Deployment - Select Computers'. The main heading is 'Configure Deployment Options'. Below this, there are several sections with input fields:

- Check Installation Shares:**
 - 32bit Client:
 - 64bit Client:
- Installation Account Settings:**
 - Username:
 - Password:
- Simultaneous Installation Threads (1-50):
- Collection Server: (FQDN)
- Management Group:

At the bottom of the window, there are four buttons: 'Restore', '< Back', 'Next >', and 'Cancel'. The 'Next >' button is highlighted with a dashed border.

Computer auswaehlen, auf welchen FCS installiert werden soll

The screenshot shows the 'Import Computers' window in the Microsoft FCS Deployment tool. The window title is 'Microsoft FCS Deployment - Select Computers'. The main heading is 'Import Computers'. Below this, there are three radio button options:

- Select Computers from the network
- Select all computers from an Active Directory Organizational Unit
- Select specific computers from Active Directory

At the bottom of the window, there are three buttons: '< Back', 'Next >', and 'Cancel'. The 'Next >' button is highlighted with a dashed border.

Computer Scan – ich kann warten

The screenshot shows the Microsoft Forefront Client Security Deployment console. The top navigation bar includes buttons for 'Configure Deployment Options', 'Select Computers', 'Deploy', 'Stop', 'ReScan Computers', and 'Reset Deployment Operation'. The main area contains a table with the following data:

Computer Name	Status	Message
[Redacted]	Online	No Antivirus Solution Found
[Redacted]	Online	No Antivirus Solution Found
[Redacted]	Online	No Antivirus Solution Found
[Redacted]	Online	No Antivirus Solution Found
[Redacted]	Online	No Antivirus Solution Found
[Redacted]	Online	No Antivirus Solution Found
[Redacted]	Online	No Antivirus Solution Found
