

Microsoft Forefront "Stirling" - Installation und erster Ueberblick - Teil I

Registrierung und Download von Forefront Stirling

The screenshot shows the Microsoft Download Center page for the Forefront Stirling VHDs. The page title is "Microsoft® Forefront™ codename "Stirling" VHDs". The main content area includes a "Brief Description" stating it is an integrated security system, an "On This Page" section with links to "Quick Details", "System Requirements", "Additional Information", "What Others Are Downloading", "Overview", "Instructions", "Related Resources", and "Related Downloads". A "Download Files Below" section is highlighted in green, with a "Proceed to Download" button. Below this, a message states: "Though you have declined to register now, please consider registering in the future. Your registration information allows Microsoft to provide you with the latest resources relevant to your interests, including service packs, security notices, and t Download Files Below link to start the download." A "Quick Details" table is also present:

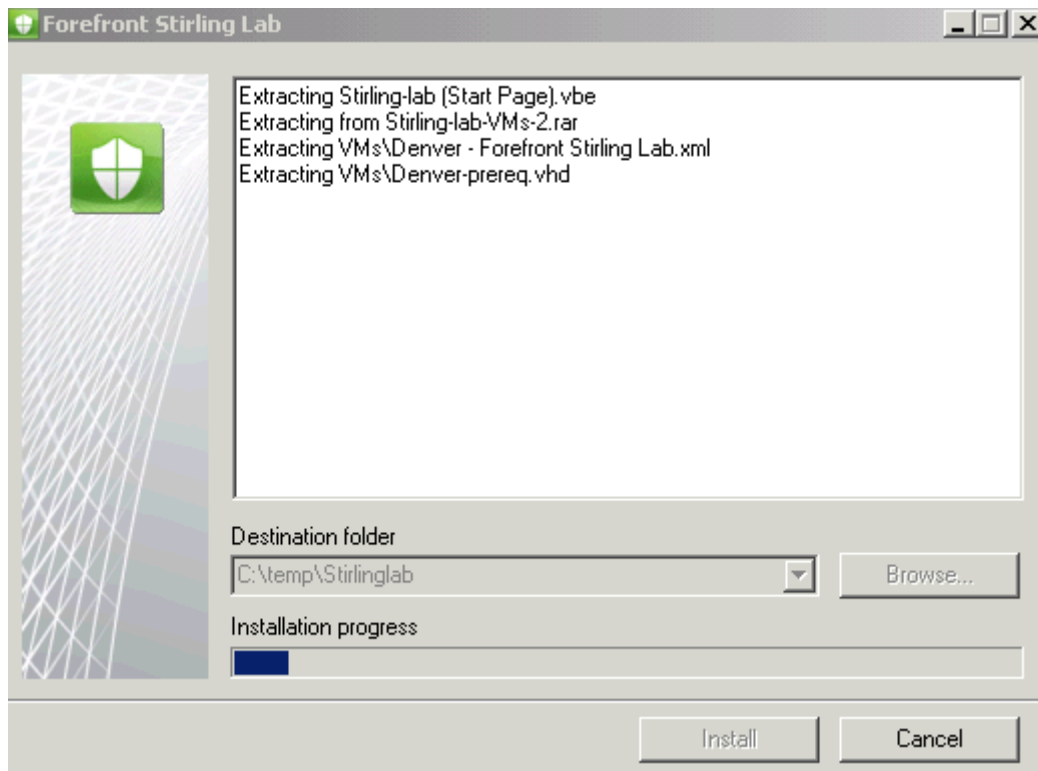

Quick Details	
Version:	1.0
Date Published:	4/16/2009
Language:	English
Download Size:	6 KB - 6027.6 MB*

*Download size depends on selected download components.

Jahre spaeter sind die Downloads durch

Alles im Ueberblick

Was enthalten die Downloads

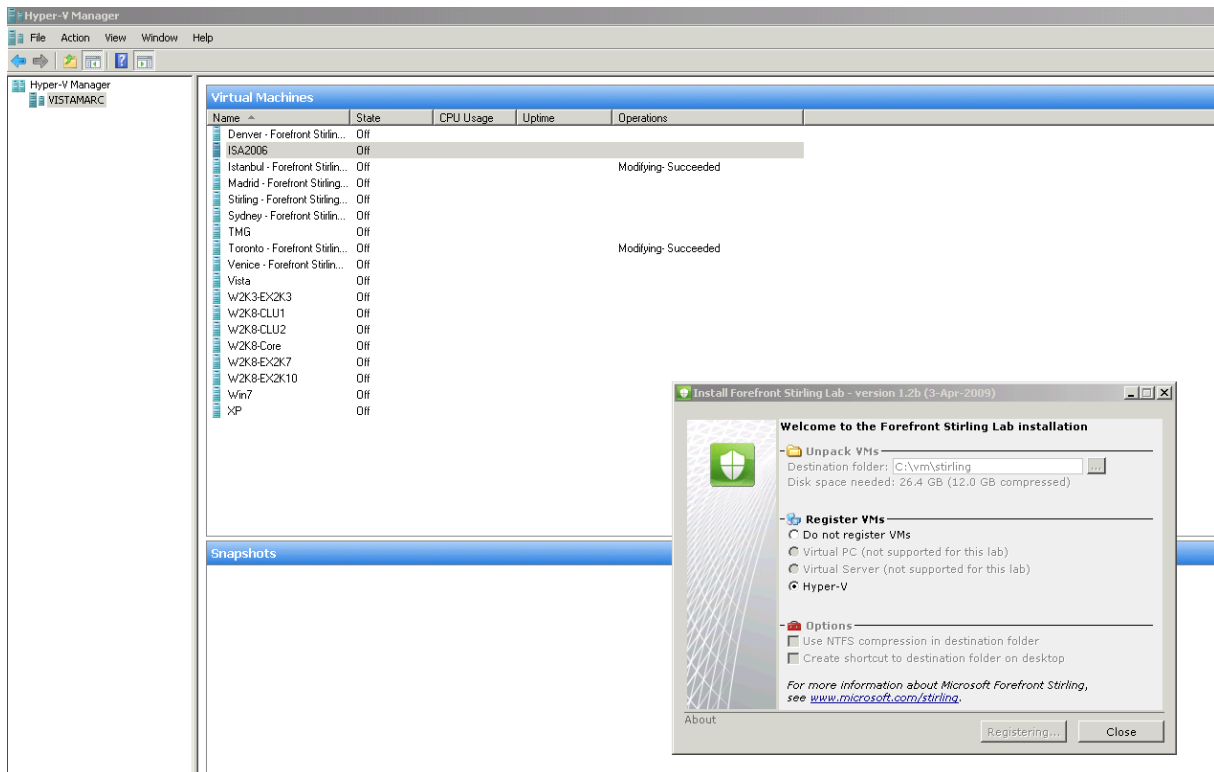

- . Denver
 - Domain Controller
 - Roles: DHCP server, DNS server, NPS server
 - WSUS 3.0 SP1
- . Stirling
 - System Center Operations Manager (SCOM) 2007 R2 (build 6407 - beta 1)
 - SQL Server 2005 SP3
 - Forefront Stirling (build 1677 - beta 2)
 - Outlook 2007
- . Venice
 - Forefront Client Security (build 1677 - beta 2)
 - NAP agent
 - Outlook 2007
- . Madrid
 - Exchange Server 2007 SP1 (Mailbox/Client Access/Hub Transport roles)
 - Forefront for Exchange (build 243 - beta 2)
- . Sydney
 - Windows SharePoint Services (WSS) 3.0 SP1
 - Forefront for SharePoint (build 243 - beta 2)
- . Toronto
 - Exchange Server 2007 SP1 (Edge Transport role)
 - Threat Management Gateway (build 7264 - beta 2)
- . Istanbul
 - IIS 7

Installation der VM in Hyper-V. bei so vielen Maschinen schwer - oder?

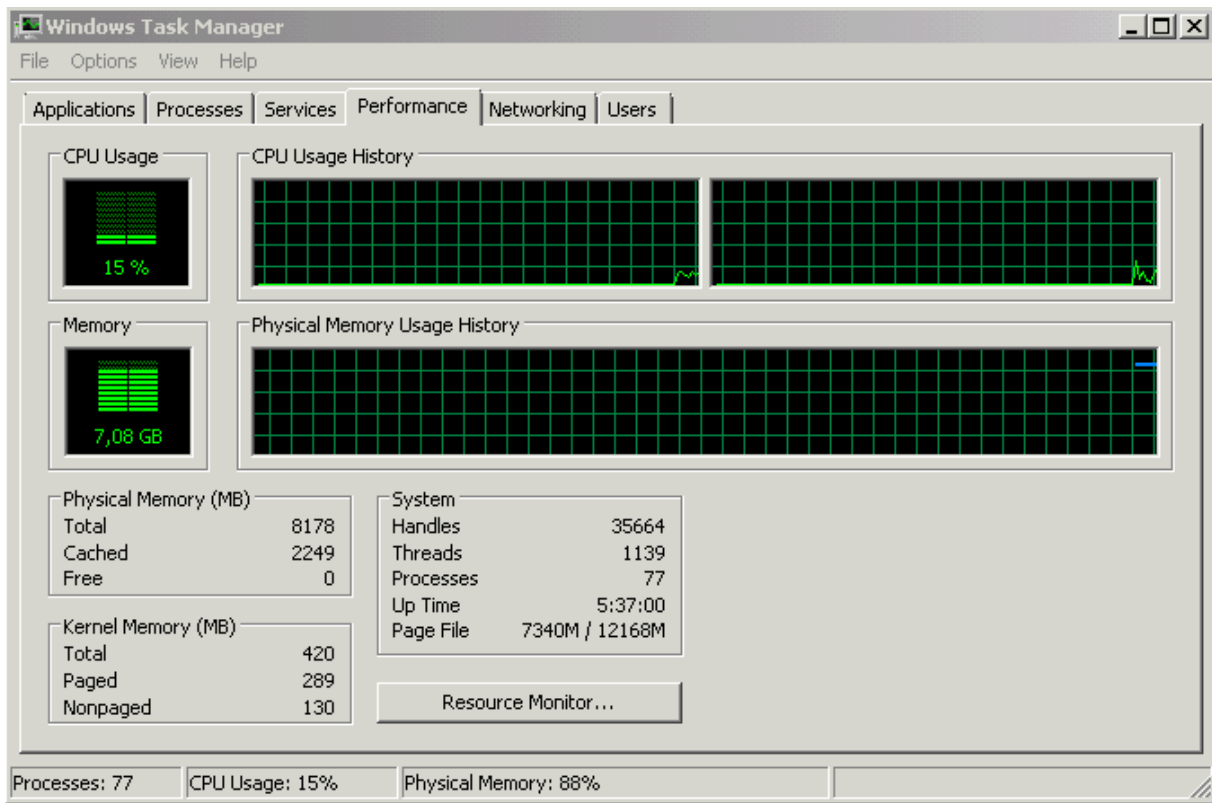

Cooler Script. Ein Klick und ... fertig. So kennt man(n) Roland B.

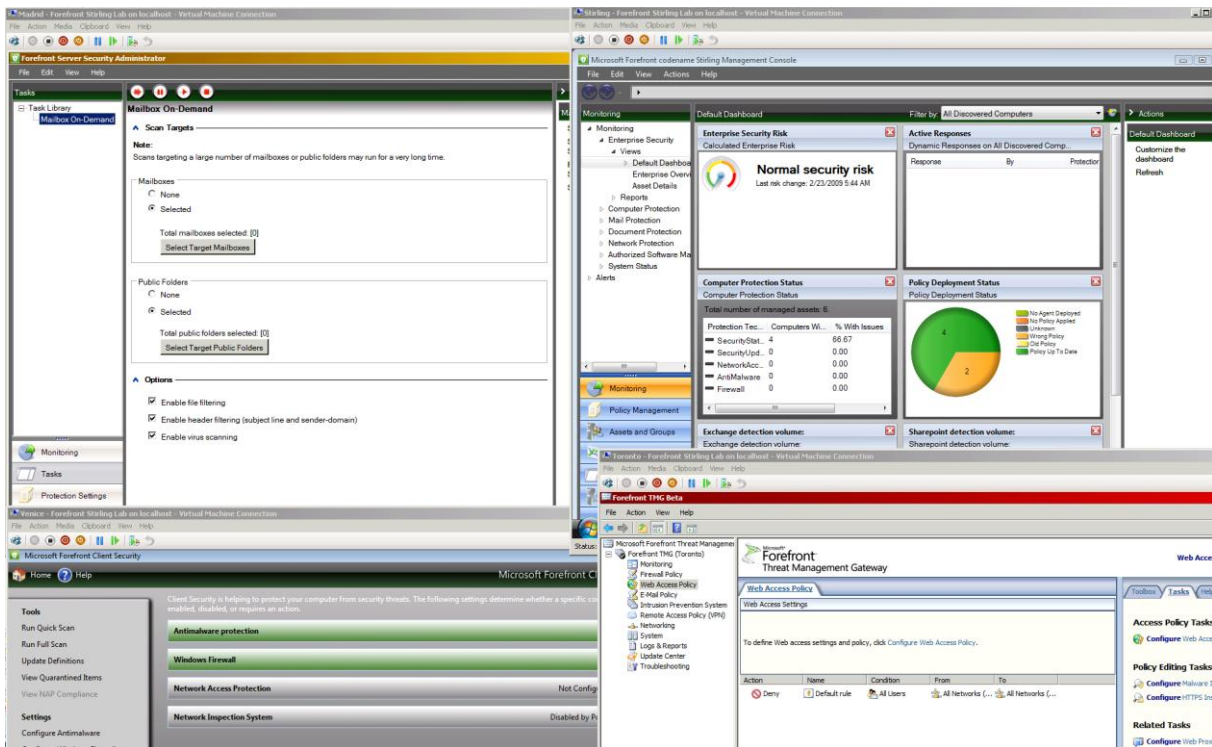

und ab gehts

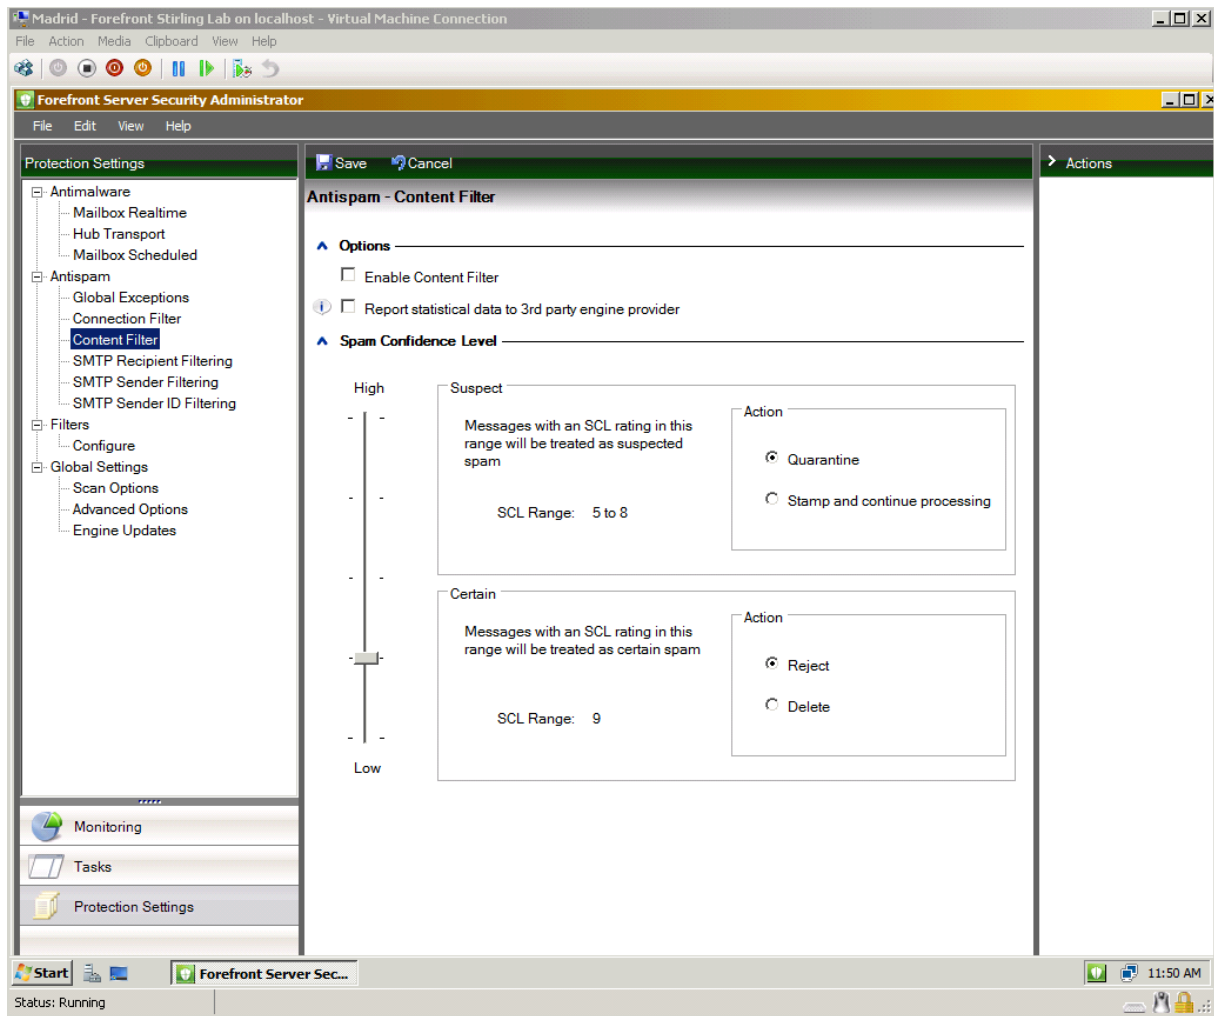

Ein bissle RAM braucht's schon

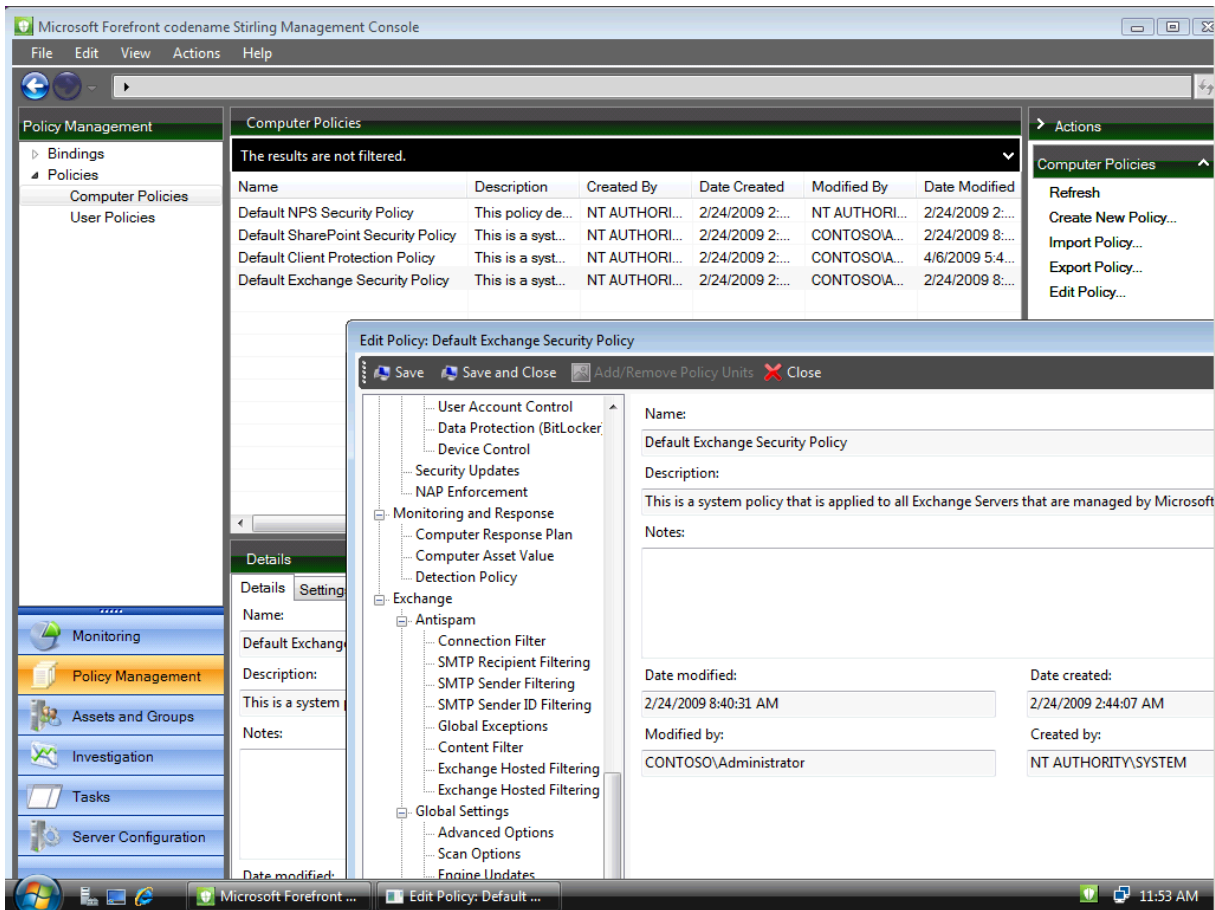

Nach einigem warten und der korrekten Startreihenfolge, das grosse Bild (fast) aller Produkte

FSE

Stirling Management Console

und nochmal Stirling
