Intune App installieren

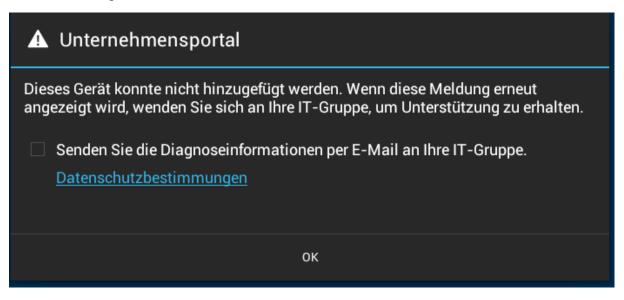

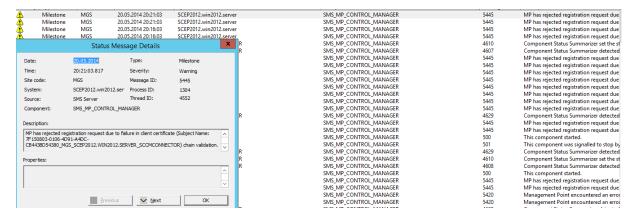

Geraet hinzufuegen

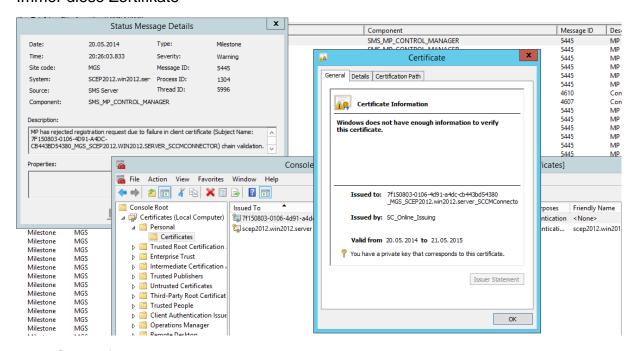

Fehlermeldung

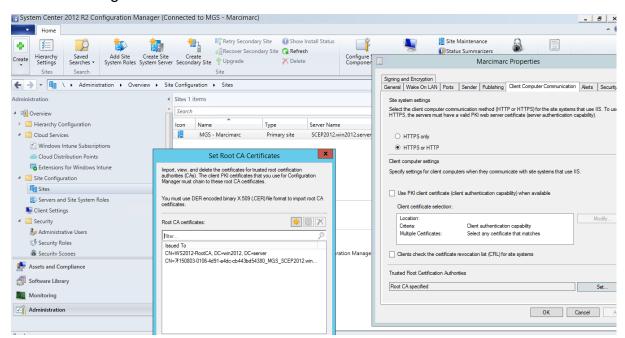

Immer diese Zertifikate

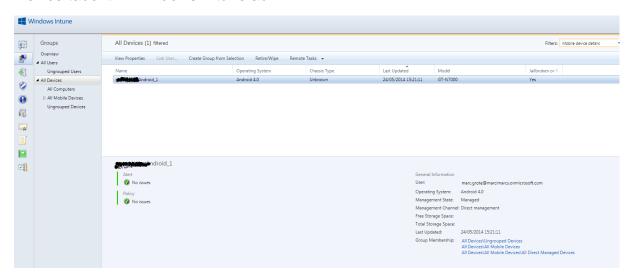

Root CA konfigurieren

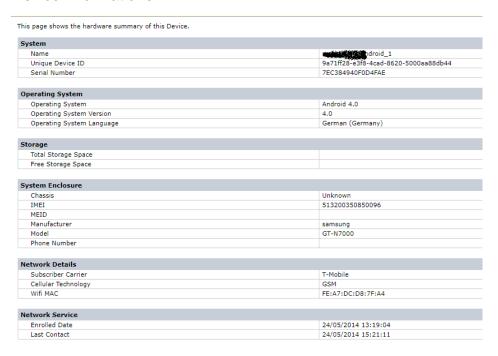

Danach klappt es

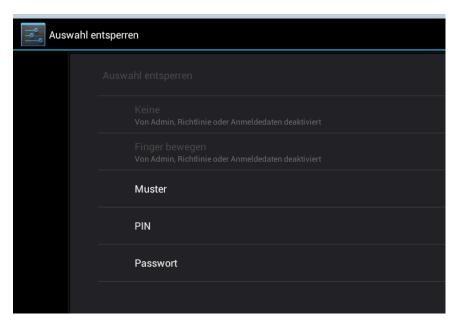

Device taucht in Windows Intune auf

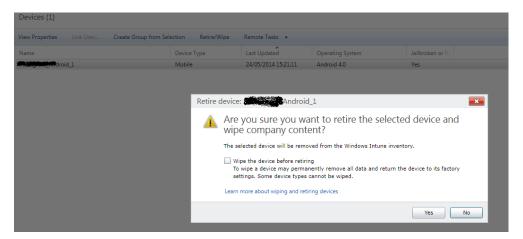

Device Informationen

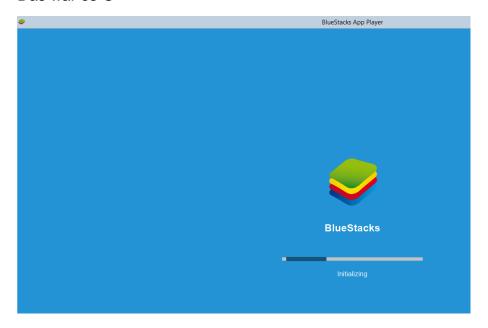

Remote Lock initiieren

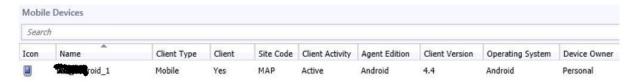

Device Reset Test

Das war es ©

Nach kurzer Zeit taucht das Device auch im SCCM auf. SCCM kontaktiert Windows Intune und schreibt das Device in die SCCM Datenbank.

Software kann jetzt an die Android Devices verteilt werden

Intune als Autoritaet festlegen OHNE SCCM
